

Acts In Scene "Thou Art"

Visit "[Thou Art](#)" on MotoLyrics.com

Untouched by echoes of the world
In the strong loneliness of me, these sunless cliffs
Knowing the truth of things unseen before
Strange spells - Of old deities?

The vertigo of emotion
In the flat project of a spiral
To give these elements a name and a center

CHORUS:

But thou art perennial sense
Dividing thoughts mesmerize
But thou art immortal shade
To shade away intoâ€¦!
(In which I shade away intoâ€¦!)

The swirling sphere has openedâ€¦!
The bright shallow seas
Falling through the pale green water
Enclosed in sapphire - whirling tissue of light

Free us, for we not perish
In that ever flowing river of the deepest silence
And by those naked and impudent songs
With light little feet
Wild desire falls like black lightning

CHORUS AGAIN
