

## Censura "The Voice"

Visit "[The Voice](#)" on MotoLyrics.com

You'll find me there heart beat so strong without life  
and care

We are distracted by progress  
Everything we got our hands on  
It's hope that fears  
It is the violence (violence)  
For every one man lost there is one that dreams

We know this could last forever  
We roar we have the voice within us  
I want to feel you scream  
And hear you say  
I am everyone I am everything I'm more

So we decide on nothing,  
Let them have it, We're not, We're not designed to fail  
It's in our silence  
It takes the braver man just to walk away

We know this could last forever  
We roar we have the voice within us  
I want to feel you scream  
And hear you say  
I am everyone I am everything I'm more

I am everyone I am everything I'm more (x2)

You look for a hero but the saviour is you  
Belief is hidden inside  
The crows won't leave you

We know this could last forever  
We roar we have the voice within us  
I want to feel you scream  
And hear you say  
I am everyone I am everything I'm more
