Mankinds greatest wish, since beginning of time  
Eternal life, a place to hang in paradise  
Self-preservation, for a disordered nation  
No heaven awaits, now we know life's worth  
So we try to extend it, to remain here on earth

So if you got the cash, reproduce yourself  
Secure your future, secure your health  
So if you got the cash, reproduce yourself

Secure your future, secure your health

Self-preservation, for a disordered nation

Lack of interest, where or why  
Creation meaningless, as long as we stay alive

So if you got the cash, reproduce yourself  
Secure your future, secure your health  
So if you got the cash, reproduce yourself  
Secure your future, secure your health
