You know what we gotta do...
We gotta take it to the limit

I look up in the sky and I see
The stars are shining all so brightly
And I can't get you out of my mind
A beam of light will shine upon you
And show you now that I can be true
And I can't get you out of my mind
We gotta take it to the limit

Take it to the limit
Take it to the top
If you understand it's never gonna stop
Take it to the limit
Take it to the top
And if you wanna get there
We gotta take it to the limit
We gotta take it to the limit

Take it to the limit baby
Just like I don't make you, you drive me crazy
The way you make me feel
Real do wholly feel, like a magnetospiel
Turn around turn around my heart is burning
Troubles are coming, can't see much around them
Girl I gotta going on, every dude has a right to be
wrong, uh
Can I get away from this, By your side I will stand
With a witness, making these a witness.
Let them buy off with you any
Come on let's take it to the limit

Show him it mister why your front to
Please tell me something
What the girl wanting
Hope that is me
Yesteraudry. The original techno gee
Man I stand for you baby
You make me feel so sleazy crazy
Take it to the limit, no first position

'Cause sex is education right of a nation
I'll be there for you honey
You're right on the money and oh, so stunning
And you're all that dig it
So just take it to the limit

You know what we gotta do right know
We gotta take it to the limit
