Now, in the 24th century, after the 5th World War,  
After the total destruction of atmosphere, earth and  
mankind  
Jesus Christ came back, as he had promised...  
But in that time religion and God were only ancient  
legends  
That no one could remember... Amen  
People are living under the ground  
The hell is now behind the clouds  
Only in the caverns they way survive  
The burning' air makes only fear and starts to kill  
The deadly fear.  
How can I save my little child?  
What can I tell him about the sun?  
The only true answer is when I say  
Sun is the killer, and run away, run away...  
Hear me baby...  
And when my woman is close to me  
I hear her breath and see her tears  
The breath is heavy and tears are red  
Baby, baby I'm scared...  
Hear me baby  
There is nothing on the other side  
Hear me baby  
But we must be live 'cause  
Jesus doesn't forget about us.  
Oh, Lord will you find us here  
Take a step under the ground  
Welcome in the Hell. don't hang around...  
We are living and watching you  
We wonder what you can do  
What about Heaven, what about Prise  
What is the sense to crucify?  
Jesus stopped and looked at me  
The empty hands and mistery  
What can I do? How can I save?  
Yes, I know - it's too late.  
It's too late...
