I can do kung fu  
Do the moves I do  
I must be salate  
So I can do karate

[Refrain:]

Answer to the land of the rising sun  
Asia is the place where it all begun  
Look at all the fights and the medals they've won  
Come and make karate fun  
everybody kick to the kung fu beat  
Who will be the master?  
Who will take the lead?  
everybody kick to the kung fu beat  
Who will be the mastah in the street?

I can play the master  
I'm the master blaster  
Can you do it faster?  
How long can you last here?

[Refr.]

I can kick it high and low  
You can come and watch the show  
This is what I've learned to do  
You can also do kung fu  
If this is where you want to be with me

[Refr.]
