Now you've had your honeymoon  
In the Poconos  
Now you've had your heart-shaped tub  
Bring along the time-lapse photo  
Of the two of us  
Wrestling on a bearskin rug  
Come on

Take me to love canal  
Take me to love canal

'74 I left my neighborhood  
Looking for a Buffalo gal  
Everyone was gone when I got back home  
And I think I like it better now

Take me to love canal  
Take me to love canal  
Take me to love canal  
Take me to love canal

You and me  
And the Siamese twins  
Little dears  
In their crocodile skins  
Just livin' off the fat of the land

If you lived here, you'd be home now!

Come on, little baby, you'll like it up there  
The wide open space and the big blue air  
You'd be surprised what you can get used to  
When your only other choice is...

Houston

Take me to love canal  
Take me to love canal  
Take me to love canal  
Take me to love canal
