"Feel The Machine"

Visit "[Feel The Machine](#)" on [MotoLyrics.com](#)

It's silent it's deadly
It's so strong it's so wrong
It's shiny it's grimy
It's so cold it's so low

Everybody wants to feel the machine
Everybody yeah you know what I mean

It's nowhere it's everywhere
Do you trust it? you just lust it

It's glowing it's growing
It's so weird just disappeared

Interfering interfacing disappearing

It's nothing it's everything
It's so twisted can you resist it
It's coming you're coming
It's in you it is you
