Actually the way that we met
Never thought we could be together
It started off slow each day wanting more
Now time's finally took it's toll

Give me your love
Something that you give plenty of
Give me your love

Give me your love
Something that you give plenty of
Give me your love

Wished to get your heart
Touch the loving part
Give you what you've been wanting for

Now that you're gone
Been crying all night long
I miss the special moments we've shared

You're so quiet and yet you're [Incomprehensible]
Everything I wanted you to say
Baby, if you would just open up your eyes
And don't be blind and you will see
Do you love me?

Give me your love
Something that you give plenty of
Give me your love

Give me your love
Something that you give plenty of
Give me your love

Give me your love
(I've got to have it)
Something that you give plenty of
(I need your love)
Give me your love
(Your love)

Give me your love
(Give me your lovin')
Something that you give plenty of
(I want it all)
Give me your love
(Give me your love)

Give me your love
Give me your, give me your love
Give me your love
(Give me your love)
Give me your, give me your love
(Give me your love)

Give me your love
Give me your, give me your love
Give me your love
(Give me your love)
Give me your, give me your love
(Give me your love)

Give me your love
Give me your, give me your love
Give me your love
(Give me your love)
Give me your, give me your love

Give me your love, your love
