Deep in the heart
Love has many ways
Of touching your emotions
Taking control of you
And even in thought
Love can make you change
There's no way of controlling love
When it's part of you

Well you could be a married man
With two kids and a good woman
And you could give your heart and soul
I swear it don't mean nothin'
'Cause love can pull you deep into a spell
It will spin your mind around like a carousel

I'm telling you love
Boy, makes things happen
You never know where it's coming from
You never know who you're gonna love
I'm telling you love
Makes things happen
You never know what you're gonna do
When ever true love takes hold of you

There's never a time
'Cause love will let you know
Love appears at the worst
And even the best of times
Takes over your mind
Your heart is not your own
There's no way of controlling love
It controls your life

Well, you could be a faithful girl
With a good heart and good intentions
And you could never leave your home
I swear there ain't no preventions
'Cause love can pull you deep into a spell
It will spin your mind around like a carousel

I'm telling you love

Boy, makes things happen
You never know where it's coming from
You never know who you're gonna love
I'm telling you love
Makes things happen
You never know what you're gonna do
When ever true love takes hold of you

There's nothing love can't make you do
When love takes hold of you
You can have the purest heart and the finest attitude
But I swear that don't mean nothin'
When your heart's under the spell
It will spin your mind around like a carousel

I'm telling you love
Makes things happen
You never know where it's coming from
You never know who you're gonna love
I'm telling you love
Makes things happen
You never know what you're gonna do
When ever true love takes hold of you

You never know
You never know it
You never know
You're never gonna know it, baby
Who you're gonna love
Who you're gonna love, baby

You never know
You never know it
You never know
You're never gonna know it

You never know
You never know it
You never know
You never, never, never, never, never know
No, no, no, no
You never know

You never know
You never know it
You never know
You never, never, never, never, never know
No, no, no, no
You never know

I'm telling you

You, you, you never know
You never know
You never know it
You never know
You never, never, never, never, never know
No, no, no, no
You never know
