

Peel "Neverending"

Visit "[Neverending](#)" on MotoLyrics.com

Feels like the universe
Like some forgotten curse
Sleepwalking through the night
Dream's cold - this life
Sun is up now, face the world
Someone's nailed a cryin' girl
Exposed in black and white
World's cold - this life
I don't know why
I don't know when
It all began with sorrow
Let it out
Let it out
It can't be
It can't be
Neverending
It's on these crowded streets
In every man you meet
It's always within sight
Dark cold - this life
Now, time might heal these wounds
But light turns dark too soon
And dogs still bark and bite
World's cold - this life
