(feat. Jel & Odd Nosam)

I'm your neighborhood spaceman.  
You don't know who I am,  
or where I've been.

Circling like a satellite.  
Sigh post in the sky,  
look at me.

I'm really just a tamborine  
The world is shaking me,  
so listen cause now I'm gonna sing,  
I'm comin' home.  
You hear my song through the galaxy.

Time's light has reached your eyes.  
World has lived and died, but we're here.

Time and space are landing right where we're  
standing.  
Open up your hand and something good will happen.  
Drinking on the sun,  
we found a whole new planet.  
Stars align a thousand times that old black magic.

When no one is looking,  
ain't gonna shut my mouth and I'm crying out.  
When no one is looking,  
I'm onto your balcony singing the serenade.  
When no one is looking,  
I swallow thunder clouds, I kiss the hollowed ground.  
When no one is looking,  
I eat the desert sand and drink the Rio Grande.  
When no one is looking,,  
I'm crying raindrops and chewing mountain tops.  
When no one is looking,  
I break another rhyme and I'm stopping time.

I'm your neighborhood spaceman,  
and your breath is moving through me.  
On the surface of this moon I can say to you, It's okay

Somebody inside of us makes this joy a must,  
then we'll be knee deep in ecstasy no gravity to hold us  
down again.

Were Free!

A thousand light years from this place,  
I see the look on your face and I'm there.

Time and space are landing right where we're  
standing.

Open up your hand and something good will happen.

Drinking on the sun,

we found a whole new planet.

Stars align a thousand times that old black magic.

When no one is looking,

I'm gonna buckle down, I'm gonna hit the ground.

When no one is looking,

I got to understand, I'm packin' up again.

When no one is looking,

I'll pull the car around cause I'm leaving town.

When no one is looking,

I'm just a rocket man, I've seen the light again.

I'll never give up,

I'll never let you down, I'll break through the crowd

I'll never give up,

but On the Other hand I wanna be the man.

I'll never give up,

I'll never let you down, I'll break through the crowd

I'm courageous enough,

but on the other hand I'm out of here, my friend
