See how she shines
Shining there for you
Look how she moves
Swimming in the blue
Pierced your skin, pulled you in
You don't know where to begin
There's something about her
Something that makes me smile
Something about her
You just can't define
Makes you feel alive
See how she shines
Dancing in the light
Weaving her spell
Beauty shining bright
Love so blind, frozen in time
Leaving our world far behind
There's something about her
Something that makes me smile
Something about her
You just can't define
Makes you feel alive
See how she shines
Shining there for you
Look how she moves
Swimming in the blue
There's something about her
Something that makes me smile
There's something about her
You just can't define
Makes you feel alive
There's something about her
Something that makes me smile
There's something about her
