(feat. Singing Fats & TC)

I can't get used to you,
I can't get used to you,
I'm gonna take yourself away (ohh, yeah, come on, get
it [x4]),
Like the way you move, like the way you groove (ohh,
yeah, come on, get it [x4])

You got structure,
You betta believe ya (yeah),
Who's comin at ya,
The way you look when ma music flowin,

You got structure,
You betta believe ya (yeah),
Who's comin at ya,
The way ya look when the music's rollin

I can't get used to you
I can't get used to you
ohh, yeah, come on, get it [x8]

You got structure,
You betta believe ya (yeah),
Who's comin at ya,
The way you look when ma music flowin,

You got structure,
You betta believe ya (yeah),
Who's comin at ya,
The way ya look when the music's rollin

I can't get used to you,
I can't get used to you

ohh, yeah, come on, get it [x8]

You got structure,
You betta believe ya (yeah),
Who's comin at ya,

The way you look when ma music flowin,

You got structure,
You betta believe ya (yeah),
Who's comin at ya,
The way ya look when the music's rollin

Oh, I can make ya feel so good,
And yeah, turn ya world upside down,
Oh, I can look into your thoughts,
And yeah, I can look forever if I so desire,
I don't really wanna show you all that,
If its ok that we can call that,
I don't really know where I stand now,
I can do anything ya want but

I can't get used to you,
I can't get used to you

You got structure,
You betta believe ya (yeah),
Who's comin at ya,
The way you look when ma music flowin,

You got structure,
You betta believe ya (yeah),
Who's comin at ya,
The way ya look when the music's rollin
