I can't get used to you  
I can't get used to you  
I'm gonna take yourself away (ohh, yeah, come on, get  
it x4)  
Like the way you move, like the way you groove (ohh,  
yeah, come on, get it x4)

You got structure  
You better believe ya (yeah)  
Who's comin at ya  
The way you look when ma music flowin

You got structure  
You better believe ya (yeah)  
Who's comin at ya  
The way ya look when the music's rollin

I can't get used to you (ohh, yeah, come on, get it x4)  
I can't get used to you (ohh, yeah, come on, get it x4)

You got structure,  
You better believe ya (yeah),  
Who's comin at ya,  
The way you look when ma music flowin

You got structure,  
You better believe ya (yeah)  
Who's comin at ya  
The way ya look when the music's rollin

I can't get used to you  
I can't get used to you

ohh, yeah, come on, get it x8

You got structure,  
You better believe ya (yeah)  
Who's comin at ya  
The way you look when ma music flowin

You got structure

You better believe ya (yeah)  
Who's comin at ya  
The way ya look when the music's rollin

Oh, I can make ya feel so good  
And yeah, turn ya world upside down  
Oh, I can look into your thoughts  
And yeah, I can look forever if I so desire  
I don't really wanna show you all that  
If its ok that we can call that  
I don't really know where I stand now  
I can do anything ya want but

I can't get used to you  
I can't get used to you

You got structure,  
You better believe ya (yeah)  
Who's comin at ya  
The way you look when ma music flowin

You got structure  
You better believe ya (yeah)  
Who's comin at ya  
The way ya look when the music's rollin

[It is DEFINATELY "you better believe ya" as I originally thought, not "people believe ya". Check out Fats at the start of "babylon rising" by DJ Fresh, the lyrics are similar, but more clearly "you better believe ya"]
