Ah, I had this wet dream about this red bone  
All she wore was heels, she had no clothes on  
I know you thinking, that it's so wrong  
I just want to lay her, like the old zone  
Bounce her up and down, like a 64  
Like a college girl, at a dip low show  
We out on vegas for the weekend  
Get married to her Sunday evening  
Wassup, what you wanna have a little fun  
We can stay up all night till the morning come  
Bring a friend or 2, you know I'm more than one  
Drinks on me, you ain't gotta order

She top ten of the world, whoa  
She top ten of the world, whoa  
She top ten of the world, whoa  
She top ten of the world, whoa

Love the women with style and domina  
Little kinky attitude like Tina  
Turn on instantly to a diva  
So hot, she giving me a fever  
Keep her on my head like a beeper  
Sex in the kitchen, on the deep freezer  
Turn her into a wifey from a skeezer  
You don't like monogamy, me neither  
Pull a remi, hold it on, fall out  
Hit the marksmen money, ball out  
Hanging with me, you see what I'm bout  
Make you miss world, you might have to call out  
Wassup, what you wanna have a little fun  
We can stay up all night till the morning come  
Bring a friend or 2, you know I'm more than one  
Drinks on me, you ain't gotta order

She top ten of the world, whoa  
She top ten of the world, whoa  
She top ten of the world, whoa  
She top ten of the world, whoa

Body full of curves, call it Lincoln drive  
Look so good I don't even wanna blink my eyes

If it's ace she said, go ahead and drink and drive  
Sip champagne while she drive me, that's a diw  
She a nasty girl, hair and nails done, she a classic girl  
I ain't judging no, I just cheer for  
Put her legs in the air, pull her hair for  
She top 5 and she top 10, so bad got me bout to call  
the cops then  
Party hard till we see the sun  
Even if she's does on e, she still on one  
Can put a grill on a brunch date,  
When it's the argue with the European front plates  
Cost an arm and a pair of legs  
All she do... heels, a... a pair of shades  
She a queen, honest by her kinds  
... told me that I should just buy a ring  
Get engaged, every other night  
She sipping on Malibu black like it's diet sprite  
On crib with her on car, get lost she resort right the one  
star  
... accidentally slipped off and left off the rubber  
Holding hands while we go to sleep  
Woke up alone made the bed and I fold the sheets  
Lord know on the tv screen,  
If... yesterday was just another wet dream  
Wassup, what you wanna have a little fun  
We can stay up all night till the morning come  
Bring a friend or 2, you know I'm more than one  
Drinks on me, you ain't gotta order

She top ten of the world, whoa  
She top ten of the world, whoa  
She top ten of the world, whoa  
She top ten of the world, whoa.
