"Burial Grounds"

Those shadows on the wall
Kneel faster than them all
Days turning into night
We know we'll be alright

In this life...
Till we die...

[Chorus:]

We're all standing on burial ground
Taking what we found
Feel that sound.

Pain faces fear in the end
Loud voices everywhere
Hearts beating to the drum
Right now we are the ones

In the night...
To the light...

[Chorus]

We're all standing on burial ground
Taking what we found.

We're all standing on burial ground
Taking love we found
Feel that sound.
