Got my number, girl, I know you got my digits,
Forget all this texting, for you, girl, imma waste my
minutes.

Day time or night time, it don't matter, you can hit it,
Follow for area code, will come pay you a visit,
I meet you at your spot, you can get it how you live it,
Know that I'm a soldier, so there ain't no limit.

So what we can do tonight? It's just us two tonight,
You in the mood I like, it's time to sooth the hype.

For smooth, get whatever you like, however you like,
whenever you like,
One push on your sin button, I be getting you right,
Kissing you right and hitting you right.
You're on this dick and you like, don't be afraid to show
that,
You give out crazy sex appeal, so why you trying to
hold back?
You got an iPhone, baby, look, you should take my
contact.
And anytime you wanna tinch it, you should hit me
ASAP.

You can call me, I'm showing right up,
You can call me, I'm showing right up,
You can call me, I'm showing right up,
You can call me and then I'm showing right up.
You can call me, you can call me,
Can call me, can call me.

The way I do you got you going out of your mind,
Turn this curl in, I'm putting chills on your spine,
You're thinking about me every night,
You wanna be around me every time.

Remember when I had you on the balcony at the crib?
Hair blowing in the wind, moon glowing on your skin.
You started it at ten, feeling like it never end,

You know that you can call me if you wanna go again.
It ain't nothing I ain't never want for fronting,
Never been on for bluffing, only been on for fucking,
Oups, I mean loving, I talk dirty, but you love it.
You got me on speed dial, so baby push the button.
Down with a nigger since I was up with the bugging,
I'm in the fast lane with you screaming out fucking.
Don't hesitate to hit my line if you need a ride,
At the drop of a dime, you know that I will come.

Call me, I'm showing right up,
You can call me, I'm showing right up,
You can call me, I'm showing right up,
You can call me and then I'm showing right up.
You can call me, you can call me,
Can call me, can call me.

You can call me, I'm showing right up,
You can call me, I'm showing right up,
You can call me, I'm showing right up,
You can call me and then I'm showing right up.
You can call me, you can call me,
Can call me, can call me.
