featuring Troy Ave

Pass me the green, I need some weed with my
henessy,
Pass me the green, I get some weed from my niggers,
see
Roll it up in a bad words, all switcher see,
Twenty blunts full of OG stuff, then we hit the streets.
Up that double cup, yeah, they're lean, keep the nigger
sleep,
Then I wake back up to chase the dream I see in my
dreams,
Know I'm never stopping, getting green is just in my
genes,
Though I watch it but the thing, keep it in my jeans.
Bitches always watching when my team always on the
scene,
Rolex as a watch, I see the bling through the nigger's
sleeve.
Throw it in the sky, R.I.P, to the B.I.G.,
Bitches hypnotized of my G, gotta feel them weak.
Take her to the hotel suit, then we hit the sheets,
SLS top floor screams when she hit the peak.
Girl hair, pair of goaty, bitches notice me,
Whole flare, nigger don't care, bitch, you notice me?

And you know we're drinking XO and we're smoking OG
Drinking XO and we're smoking OG,
Drinking XO and we're smoking OG,
Drinking XO and we're smoking OG.
My eyes all red.
Drinking XO and we're smoking OG,
Drinking XO and we're smoking OG,
Drinking XO and we're smoking OG,
Drinking XO and we're smoking OG,
My eyes all red,
My eyes all red,
My eyes all red,
My eyes all red.

Rolex on my own, load on my ex,

Yeah, I got this bitch on from Chase N. Cashe.
Fast lane checked flight in a check,
Gas still ain't change, but now a nigger whipping white
With the green I need some weed in my Hennessy,
So we gonna get high in this fucking weekend
But be careful out in the streets and in the sheets
You don't wanna be burned by the heat or by a piece of
pussy
I do stay at the SLS, straight out the LA ex,
Stay in the lanes of the steps.
I feel bizarre, I regret, fascinated by the height,
I achieve from playing dice with my life.
I got fright being broke at thirty, being cold with them
burries,
Being caught for the murders, was a needle just mark
me.
It was a buzzing in the eyes, all the people ask for
price,
Got that leaked to the grand for, smoke up in the sky
for me.

And you know we're drinking XO and we're smoking OG
Drinking XO and we're smoking OG,
Drinking XO and we're smoking OG,
Drinking XO and we're smoking OG.
My eyes all red.
Drinking XO and we're smoking OG,
Drinking XO and we're smoking OG,
Drinking XO and we're smoking OG,
Drinking XO and we're smoking OG,
My eyes all red,
My eyes all red,
My eyes all red,
My eyes all red.
