Verse 1

Awaken all of us tonight
For we are losing You in our sight
Awaken all of us tonight
For we are losing, You in our lives

Pre-Chorus

Our focus has shifted from you
And onto this world, where it does not belong

Chorus

Take me away from here, keep me close to you
Hide me from this world, keep my eyes on you

Verse 2

Awake all of us for life
For we are fading without Your light
Awaken all of us this time
For every moment is passing us by

Pre-Chorus

Our sins have been lifted by You
Oh glorious God
This is where I belong

Chorus

Bridge

My head hangs and mind starts to fall
In a spiral decline headed straight for my soul
My mind slows and later grows numb
To the evil of this world as You beg for control

Chorus X2
