Verse 1

Your love is the only thing I can find right now
When all else seems to fade
My heart is the coldest place I've ever known
Without you here with me

Chorus

You make me alive
Inside this broken heart and mind
You've shown me the light
Rising from these ashes I will fly

Verse 2

This life can change to so much more if I
Would give it all to you
My hope, this reliance on the only truth
Is made complete with love.

Chorus

Bridge

You remain, when all else decays
Eternally great, never fading away

Chorus X2
