### Verse 1

As I walk away, from your sweet embrace  
I can honestly, say I never truly change  
And I feel so alone, out here in the cold  
When I'm on my own, no hand to hold

### Chorus

Man versus God versus Me  
And I don't know what to believe  
Truth lies in you, alone oh God  
Pour it out on me

### Verse 2

I have left your side, and you've yet to leave mine  
Hoping to break the ice, and come inside  
My heart seems to be, under a lock and key  
Closed tight for none to see, so secretly

### Chorus

### Bridge

I was lost, due to my own self  
For I was not perfect, nor am I now  
But God you are, and always will be  
This love I've been looking for, a love to save me
