Since my long forgotten love  
Death became my love  
Shadows embrace the lunatic  
I believe no doctor  
System fail  
For god and country

Dissolved solution  
White walls  
White walls  
Red pill... red pill  
Black night  
Black night  
Tyranny

The symphonia of my childhood  
Erase... tyranny  
The celluloid past... tyranny  
In negatives  
Anticipate... hallucinate  
Crucify... crucify

30 silver coins  
The Emperor... The Empire  
My Emperor... My Emperor  
Erase  
White walls  
My madness  
My symphony
