If we got 'Ain't no bright tomorrow, should we  
remember yesterday?  
What? That's why it's yesterday  
Shit don't matter what you did yesterday  
motherfucker  
It's what you doin today, really want it?  
Niggers talking about, 'Ain't doing  
Fuck you doing right now, step your shit up nigger,  
let's go

I got an ear for eloquence, tell me different 'Ain't is  
true  
When I step in the 'Ain't and lay down  
For year I don't polish the sound, we're  
from from 'Ain't  
Legendary, bury nigger, what's up now?  
'Ain't like I got something to prove and this is true  
All you 'Ain't niggers got something to lose, e4 wow,  
tripping 'Ain't  
I'm coming after you, fools  
Earn the rep in many places, 'Ain't write the name  
Teamed within phases and everything's changed  
Set the president for high level libertarianism  
... like they need an exorcism  
Now every last one swallow 'Ain't  
And you can see the critics getting criticized for  
criticism  
Make way for the brand new nigger over here  
New 'Ain't here, 'Ain't ober here, kid

I'm just too strong for ya, and you're all  
running  
You're shoveling and it's easy for me, so  
you are running  
I'm in the place and I'm... my team, so  
you're all running  
You're the one with me,

'Ain't wanna come and slow me down  
'Ain't  
I'm the 'Ain't frigging I'm ma loose  
Hate to disappoint you, got some open news

Back with the vengeance, way bigger sound  
No way in hell niggers fighting over me now  
'ÄËÄ! while I searched on the internet  
Niggers said that my first album drowned wasn't ÄËÄ t  
ready yet  
Used over negative, 'ÄËÄ!  
I won't ÄËÄ t beat the city, you best stay in the savage  
Jumped on land 'ÄËÄ! punish 'ÄËÄ!  
Sound so incredible, 'ÄËÄ! so requesting ya  
Now words never gonna stab ya  
I dream like Martin Luther King but never think to the  
mountain top  
I've ÄËÄ been knocked down once the sad  
'ÄËÄ! for me to survive  
So than I got I ÄËÄ ll damned if I lose it  
No sleep no questions, no doubt, no excuses

Nothing in this world that can hold me down  
'ÄËÄ! come and slow me down, 'ÄËÄ! moving slow  
'ÄËÄ! believing, 'ÄËÄ! no excuses

Been to a few labels, had doors closed on me  
Like I was a bum with some mall clothes on me  
'ÄËÄ! guess I ÄËÄ m for the wrong reason, wherever  
reason
