When it's hot it's hot
Can't deny greatness
Lay back, nice and mellow
Chayse talk to them hello

In between these 4 walls
It's nothing like you've ever had before
Go ahead and turn them lights off
This... not doing no justice for ya
There's nothing to compare
Cause nobody you knew can do it better (do it better for you)
Just tell me what to do for you
Tell me what you want and I got it for you, yeah

If these 4 walls could talk they would be like
Hello, hello, hello, hello
If these 4 walls could talk they would be like
Hello, hello, hello, hello
You make my body say
Hello, hello, hello, hello
I hear him calling out

Bring your body closer over here
You holding me don't wanna let you go
I don't wanna let this feeling disappear
We waited too long it's time to show it
There's nothing to compare
Cause nobody you knew can do it better (do it better for you)
Just tell me what to do for you
Tell me what you want and I got it for you, yeah

If these 4 walls could talk they would be like
Hello, hello, hello, hello
If these 4 walls could talk they would be like
Hello, hello, hello, hello
You make my body say
Hello, hello, hello, hello
I hear him calling out

This thing that we're pursuing got us doing what we

doing
Ain't nobody else around, it's just me and you and you
Know we got... bless who ever sent you
Imagine if the walls could talk, shh, keep that
confidential
Our enemies are gone, the chemistry is strong
Commitment is for real, not just stringing me alone
You see what the fame do, can't nobody change you
I'm happy to claim you, they sent me an angel

And we're gonna go into overtime if you keep it up all
my love is for you
You know I love it baby
Now I want you to... that...
And we're gonna go into overtime if you keep it up all
my love is for you
And I want... now that... mama love is you

If these 4 walls could talk they would be like
Hello, hello, hello, hello
If these 4 walls could talk they would be like
Hello, hello, hello, hello
You make my body say
Hello, hello, hello, hello
I hear him calling out
