fools run the government sick foreign policy their
words sound valiant but their hands are green
unending quest for power taxes that make us slaves
don't believe a word of it ignore the fucked up things
they say i'm gonna make it on my own dictator on a
throne make my own philosophy u.s. of me a citizen
who's really pissed united anarchists give me death or
liberty i am my own country united states confederate
of me old whigs in parliament play bedroom politics
salacious stories make them look obscene spin on your
nemesis fill up the news today don't believe a word of it
not all the fucked up things they say it's ail me no
secret police
