Woke up to a perfect day no hope in sight but the  
futures bright ahead  
Not i know - i can hear the voices in my head they're  
telling me what to do next  
Can't wait for what waits for me got to get out and find  
whats right for me  
Today things will go my way i got to fight - can rest  
when i am dead  
Got no time for your explanations give me the  
frustrations and strained relations  
No one can say what the future holds and now i know  
i've lost control  
Who knows what waits for me - no hope in sight - the  
futures bright for me  
Can't figure it out - i guess we'll see - i know nothing  
comes for free  
Of the grasp of their expectations - their tribulations -  
no reservations  
Too long i've been denied and hypnotized by the lies  
they've told me  
And too long i've been controlled i've got to know what  
it feels like to be free  
Can't wait for what waits for me to get out and find  
whats right for me.  
And still you hear them - you loose control  
You can't escape them listen and you'll know.
