And so you spread your lies, won't face reality  
And endless fight, a struggle to be free  
Close minded fools and their hypocrisy  
The endless time you take away from me

I don't need your sympathy  
Why do you think your better than me?  
Idleness antipathy  
Why do you want to stop our scene?

Your way of life, the paths you choose  
You will never try, you can only lose  
Broken mirrors, shattered glass  
Sell your soul but you are going  
Nowhere fast, nowhere fast

And so you exercise your own free will  
I exercise my fucking right to kill  
Vicious lies you propagate your swill  
Of you're whole kind I've had my fill

I don't need your sympathy  
Why do you think your better than me?  
Idleness antipathy  
Why do you want to stop our scene?

Your way of life, the paths you choose  
You will never try, you can only lose  
Broken mirrors, shattered glass  
You can sell your soul but you are going  
Nowhere fast, nowhere fast

You're so transparent you don't think I can see right  
through you all  
Of your venom directed reflected right back on  
yourself  
Give your opinion to anyone who will listen to you  
But I wish you would just give it to someone else

All I get from you is some bullshit attitude  
I see it in your eyes but you don't realize  
Waiting for the day when you'll see a better way

May not be so kind to you next time

And so you spread your lies, won't face reality  
And endless fight a struggle to be free  
Close minded fools and their hypocrisy  
I've got ideals you can't take away from me

Your way of life, the paths you choose  
You will never try, you can only lose  
Broken mirrors, shattered glass  
You can sell your soul but you are going  
Nowhere fast, nowhere fast  
Nowhere fast, nowhere fast, nowhere fast
