I've got a little yellow car
She makes me going to the stars
But maybe later maybe soon
She'll bring me to the brightness moon
Moon people will be wait for me
Just on the moon I can be free
In my amazing world of game
There is no lie no wars no pain
Air and ground - fantastik dream
And I believe you'll come to me

I love you baby, can't you see
Just on the moon I can be free
Uuuh... la-la-la-la-la-la
Seattng alone
Turn off the phone
Out of this planet
Uuuh... la-la-la-la-la-la
I have a gun
And I willl shoot at the moon
Ai Ai Ai... Ai

I can't help seattng on the moon
I always sing my tiny-toon
It's just beginning of the sad story,
Hey hey... I think it's very boring

Sorry, I can go on moon without u!
U're strange and stuped guy
U have not fantasy insight
U just think about a culture
But u can do something to me
Can u give me a key
A key from car which make me fly

All be allright
La-la-la-la-la-la
Seattng alone
Turn off the phone
Out of this planet
Uuuh... la-la-la-la-la-la
I have a gun

And I willl shoot at the moon
