When your day is bright  
And sun shines all through the night  
That's when  
When you know you've been  
Been kissed by the sun

Sitting on the beach  
And sand tickles your feet  
That's when  
When you know you've been  
Kissed by forever sunshine

Brightness forever sunshine  
Kindness forever sunshine  
Thrills forever sunshine  
And you smile just because

You can make it in the sunshine  
Life is love in the sunshine  
This is forever sunshine

La la la la la da da da  
La la la la la da da da  
La la da da da da...  
Oh yes...!
