"On The Run"

Visit "[On The Run](#)" on MotoLyrics.com

Here I am, standin' tall
With my shield down under the sun
Heat of the life, burns my heart
Where have I come, what have I done
Chain me down, if you can
Feel like river, tears down it's bend

On the run I'm still on the run
On the run from what I become
Terrified, of my fears
Visions I made up my mind
All alone, by my will
Sentenced my self to hide inside
Let me out, if you can
Or the world has come to an end

On the run I'm still on the run
On the run from what I become
On the run I'm still on the run
Run like hell till I drop dead down
