Vs 1:

I've been waiting for a long time
To look at you with my eyes
To touch you with my eyes
To be with you and fly the skies
I used to love the times we used to spend together
But now your gone and you've left a question to me...

Ch:

Whether I was right or wrong
To choose you to be the one for me
Whether I was right or wrong
To give you everything in me
I fell to the ground every time yo killed me
You hurt me and now I see you go away
But I've gotta make it right
Eh eh, eh eh
I've gotta make it right
Eh eh, eh eh...

Vs 2:

I saw you pass by with your friend
You looked at me till I passed
You looked ay me till the end
You saw me walking just around the bend
And as I walked away
I felt my heart was burning
I felt a pinch that left me all astray...

Ch:

Whether I was right or wrong
To choose you to be the one for me
Whether I was right or wrong
To give you everything in me
I fell to the ground every time yo killed me
You hurt me and now I see you go away
But I've gotta make it right
Eh eh, eh eh
I've gotta make it right
Eh eh, eh eh...

Bridge:

You hurt me so badly
And pain is all I've had leaving you, leaving you
I walked away so sadly
Cuz' loving you is all that I could do
All that I could do...

Ch:
Whether I was right or wrong
To choose you to be the one for me
Whether I was right or wrong
To give you everything in me
I fell to the ground every time you killed me
You hurt me and now I see you go away
But I've gotta make it right
Eh eh, eh eh
I've gotta make it right
Eh eh, eh eh
I've gotta make it right
Eh eh, eh eh
I've gotta make it right
Eh eh, eh eh...
I've gotta make it right
