Oh...oh...oh...

Could you be

Could you be

Could you be

Be, be, be

Could you be my other half (Could you be)

Cause you always make me laugh

Could you be the one thats destined for me (For me)

Could you be my other half

I already done the math

Youre the one for me

It was like destiny when I first met you (When I first met you)

It was like magic, a little witchcraft, a little voodoo, what could I do

I had to talk to you, I had to get with you instantly

You was feelin me and I was feelin you, lets get it on, get it on

Could you be my other half (Could you be)

Cause you always make me laugh

Could you be the one thats destined for me (For me)

Could you be my other half (Could you be)

I already done the math

Youre the one for me

As the went years went along our love grew strong

Nothing compares to you, nothing unbreakable

There was something so peculiar, the feeling felt so familiar

Its a mystery to me, I get extremely sensitive

Could you be my other half

Cause you always make me laugh (Could you be)

Could you be the one thats destined for me (For me)

Could you be my other half (Be my)

I already done the math

Youre the one for me

I know that youre the one {Youre the one, yes, you

are}

This feeling is so strong when youre near, hurts when
youre far (Youre far)

Its like Ive known you for a lifetime, I wanna know
you for a lifetime

Everythings complete cause youre mine

Could you be my other half

Cause you always make me laugh (Make me laugh)

Could you be the one thats destined for me

Could you be my other half (Cause I already)

I already done the math (Done the math)

Youre the one for me (For me)

Could you be my other half (Could you be)

Cause you always make me laugh

Could you be the one thats destined for me (Youre
the one)

Could you be my other half (Lets get it on, get it
on)

I already done the math (Lets get it on, get it on)

Youre the one for me (Could you be)
