They say that dreams are for little kids
But you know that isn't true
Cause everyday, awake or sleep
I dream of you
There were times I would run away
Far away as can be
Lookin for the kind of love
You give to me

Chorus

I can't get enough of you, my man
I can't get enough of you, my man
I can't get enough of you

My man, I love to hear fairy tales
About castles and flowered roads
Sunshines and moonbeams, falling stars
And pretty rainbows
My love when I am near you
You know I feel so good inside
I see you dancing violet colors in the room
And get butterflies

I can't get enough of you, my man
I can't get enough of you, my man
I can't get enough of you
