Strange as it seems  
I think your way into my dream  
Roll on my pillow roll all over  
Roll it on to me  
Hold my conscience  
Your mind over matter makes me free  
Talk to my judgment  
Take me to him  
I can't let him be

Think I fell in love with the devil  
La De Da

Feel my badness it's better than good has ever been  
Call all my angels dry all my tears  
You are my best fear  
Tear my heart out I know your sweet soldier has me  
down  
Won't you be good now bad can be good  
No one can save me

Think I fell in love with the devil  
La De Da

Fly on my love  
I want you so darn bad I have to cry  
Now flow with my feelin'  
Lord forgive me I just couldn't wait

Strange as it seems  
I think you worked yourself into my soul  
Walk in my darkness make me feel warm  
Hold me in your arms

Think I fell in love with the devil  
Think I fell in love with the devil  
He's the devil
