So here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this town

So lock it up, lock it up  
Because we're on our way now  
And if we see one light on  
This town is going down

Now do you see what I see?  
This place is looking so very tasty  
And I think I smell, yes, I smell  
A golden opportunity

So when the dance gets hot  
Don't look for reasons, why not?  
Come on in it's time to begin  
Whether you're ready or not

So when the dance gets hot  
Don't look for reasons, why not?  
Come on in it's time to begin  
Whether you're ready or not

So here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this town

So here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this town

So here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this town  
Blew out of this town

So here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this town

I don't know how far we came

But it's time to leave  
That's always a shame  
The pleasure was all mine if it's all the same

We're on the road you see  
We're not on MTV  
But when we get there  
We won't shave our hair or be fags like Creed

So when the dance gets hot  
Don't look for reasons, why not?  
Come on in it's time to begin  
Whether you're ready or not

So when the dance gets hot  
Don't look for reasons, why not?  
Come on in it's time to begin  
Whether you're ready or not

Yeah, and there's nothing you can do  
We blew out of this town

So here I go with the bass line low  
Yeah, and there's nothing you can do  
We blew out of this town  
Blew out of this town

So here I go with the bass line low  
Yeah, and there's nothing you can do
