Run it
Oh, hit it

Hands up in the air as we attack the sound clash
So we emptied out the wallets, steal all of your cash
Now we've got this sound surrounded, so surrender
your stash
And now that competition's done 'cuz hasta your mash

If you only use samples, well then you're not original
If you're not original I won't be your criminal

Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Hold up the dance like a robbery

Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Hold up the dance like a robbery

Operator, butter finger, record fumbling
While across the dance it's our system with boxes
rumbling
You got your fat face, fat lace, groupie lovin' you
While the girls use our place up later 'cuz they love our
sound move

If you are a natural I love it when it's natural
If you're not all natural I love it not all natural

Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Hold up the dance like a robbery

Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Hold up the dance like a robbery

Don't you run away, don't you run away
Don't you run away, don't you run away
Don't you run away, don't you run away
Don't you run away, don't you run away

Baby if I could say
What am I dreaming of it's another tale
So kill your sound
All of you gone, gone, gone away

Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Hold up the dance like a robbery

Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Hold up the dance like a robbery

Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Hold up the dance like a robbery

Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Freeze, jump back, put up your arms and
Hold up the dance like a robbery

Don't you run away, don't you run away
Don't you run away, don't you run away
Don't you run away, don't you run away
Don't you run away, don't you run away
