I'm exactly where I want to be
Like a thief inside a robbery
Listening to pirate radio
Imagine that I'm in the show
Empty sky but I'm still composed
Take some time for these sexy episodes where
Pussy licking, Pussy licking me oh I
I see a photo opportunity
Now lick your lips shake your hips cause that's the shit
now lover
Let the licker help you get on it
Now this room is getting loud
Must keep an eye now, three is a crowd so
Pussy licking, Pussy licking me oh I
I see a photo opportunity
Now lick your lips shake your hips cause that's the shit
now lover
Let the licker help you get on it, Let the licker help you
get on it
If you wanted to, you could do like me
Several times, I know, I'm lucky to be
In the mix but still composed, lost inside these kinky
episodes
Pussy licking, Pussy licking me oh I
I see a photo opportunity oh
Now lick your lips shake your hips cause that's the shit
now lover
Let the licker help you get on it, Let the licker help you
get on it oh
Whoa you, you should imagine, all that these eyes yah,
all these eyes have ever seen
I hope you, you got something that I could use, oh I
could use, oh I could use you baby one more time

12. Old Time Problem

Well I see the sunshine in your hair, But I'm Tied up with
inebriation
Naughty girl, leave me alone
It's a moonshine love, I'm so jealous that I cut my hand
off
Broken glass, is in my veins
You're like an old time, old time problem

And when I should have left you alone
Well now you got me on the floor
You're like an old time, old time problem hey,
And when I should have left you alone
Well now you got me on the floor
Now that I'm a tipping toes
I'm looking outside thru the bullet holes
No one will ever know, how hard it is to answer the
phone
All my words get twisted, all my faith gets lifted
All my pain is drifting, and I don't know why
You're like an old time, old time problem
And when I should have left you alone
Well now you got me on the floor
You're like an old time, old time problem hey
And when I should have left you alone
Well now you got me on the floor
Well I get so tired of trying, when I know you'll never be
pleased
You're always giving me something, but never anything
I need
Or maybe this aint working, my backs against the wall
Maybe it aint working, but that's the way it goes
You're like an old time, old time problem
And when I should have left you alone
Well now you got me on the floor
You're like an old time, old time problem hey
And when I should have left you alone
Well now you got me on the floor
You're like an old time, old time problem
And when I should have left you alone
Well now you got me on the floor
You're like an old time, old time problem hey
And when I should have left you alone
Well now you got me on the floor
