So you are saying there's a chance for us  
(For us)  
Now take off your little pants for me  
(For me)

Gonna give you something you won't forget  
(Never forget)  
Guaranteed to make that pussy wet  
(I'll splooge for you)

Many dreams, many creams  
(I'll splooge for you)  
Only you, only you  
(I'll splooge for you)

I'm gonna give you something  
Guaranteed to make that pussy wet  
Now it's time to go on with my life  
(My life)

You were fun at one point in time  
(Time's gone now)  
Don't you think I am coming off of this cloud alone  
I'm still up on thought of a bowl  
(I'll splooge for you)

Many days and many dreams  
(I'll splooge for you)  
Only you and many screams  
(I'll splooge for you)

I'm gonna give you something you won't forget  
(I'll splooge for you)  
And I'll be on your favorite bed

(I'll splooge for you)  
Many screams and many dreams  
Only you and many screams  
Gonna give you something you won't forget  
And I'll be your end, I will know
