[verse 1:]

You think that we can't see your face. I think you need
to give us our space. you know that we
can raze this place and leave you without a trace.
Storm trooper storm trooper why are you here the
youth
them getting restless and they don't want you near.
Your watching us your watching us it so improper we've
seen your kind before we call it informer. Storm trooper
storm trooper where will you go? This world she no
like you so you better stay low. And up from the
mountains and out from the trees, that is where you
come
from you crawl like the one disease.

[verse 2:]

So now you pass me the laser beam and you want me
to join the team. Well Im not used to these
kinds of things, but this is what the evil brings. Let me
tell you bout the fire. You could bring the
waters up above. I'll bring my favorite people and I'm
bringing all my love. You want a battle well don't
look very far, you want to fight somebody come fight
the superstar. I knew you wouldn't stand a chance you
left without a passing glance, there's nothing you could
ever do to keep me from stopping you

[verse 3:]

It's so dark and lonely out here in outer space, but at
least I got my keyboard and my low bot
has his bass. Playing street sweeper tunes and
watching tye fighters fly by. Things would be better if I
was back at home with pepper burning pakalolo not
even noticing the weather so far and so alone a million
light years away. Storm trooper storm trooper back up
from my door I got my blaster set I'm ready to start
a minor war. This won't be the day you were hoping for
so just walk away walk away. Better run now cause
your done now cause your standing in a bad mans
town, boy. Time to get back to my daily routine have a
beer at a bar on tattooine.

[chorus:]

You take away everything , make my people scream
out loud. Just bring it back Lord just bring it
back. You mess it up and you rearrange open your eyes
and turn the page. Just bring it back.

[chorus 2:]

I believe I'll interject to talk about the word respect. Its
not a word that's in your hands
its more about the common man You took your time
and paved the way making room for other man to play
a
grip of bodies a mess of minds endless conversations
to rock. na na na na
