I felt like I was falling down  
I just couldn't find my way  
without your love I was losing ground  
baby, baby

I searched so long and finally found  
love that took my breath away  
you came along and changed my life

Ref.

Who's gonna stop me now  
who's gonna stop me now  
now that I've got your love  
and you're here with me  
they'll never bring me down

We're kissing and hugging all the time  
I don't care what people say  
'cause making love is not a crime  
baby, baby

You make me feel so good insine  
the sun in shining every day  
tell the world that you are mine
