Leaving your side  
Isn't harder than leaving the room  
I'm surrounded while you're alive  
I can no longer sell out & lose you  
Forever holding me

How long is always  
Answer forever  
How long is always  
Answer forever, underground  
Sidelined  
Underground

Love is like a thousand burning needles  
Pushing through my skin  
They work their way inside  
Coldness from within  
A lonely sun will reach the skies above  
Ascending over me  
The years all seem like days  
As seconds look the other way

How long is always...
