I think about you all of the time.
I did this.
And I went there.
And I think about you all of the time.
The day fades away.
And the night passes over.
And I think about you all of the time.
I think about you all of the time.
Here come my shoes.
Here comes me!
One, two.
One...

I think about you all of the time.
Step after step.
Block after block.
I think about you all of the time.
The day fades away.
And the night passes over.
And I think about you all of the time.
I think about you all of the time.
I hear.
I say.
I see. I do.
I think about you.
All of the time.
