### "Laughing"

Visit "[Laughing](#)" on MotoLyrics.com

My baby says, my baby says  
We can live in the empty spaces of this life  
My baby says, my baby says  
Far away the stars are coming all undone  
My baby says, my baby says  
My baby says, but that's far away  
And we're young  
My baby says, my baby says  
And if the devil comes we'll shoot him with a gun

My baby says, my baby says  
We can live in the empty spaces of this life  
My baby says, my baby says  
In the desert sands our hearts are brighter than the sun  
My baby says, my baby says  
When the devil comes we'll shoot him with a gun  
My baby says, my baby says  
And if he shows his face we'll laugh
