My eyes are growin tentacles for to grab you.
My eyes are growin hand grenades for to have you.
My eyes are growin tentacles for to grab you.
I live in a house without any windows.

My hands are growin spectacles for to grab you.
My hands are growin half the night for to have you.
My hands are growin spectacles for to grab you.
My hands are growin spectacles.
I live in a house without any windows.
I got a 40 watt bulb to light up my life.

My eyes are growin tentacles for to grab you.
My eyes are growin hand grenades for to have you.
My eyes are growin tentacles for to grab you.
My eyes are growin hand grenades.
I live in a house without any windows.
I got a 40 watt bulb to light up my life.
