

A Perfect Murder "Body And Blood"

Discipline is the blood of life
Strength an only friend
No time for sorry
It's just time to move on
I'm the last man

Castration
Furstration
You don't mean a fuck to me
Stronger by the hour
What we had is soured
Your thoughts ain't shit to me

Intimidation
Domination come the taste
The hate I bleed
I am the new found power
The drug you bow to
Your weakness is all you need

Anti-life for the weak
No sympathy for the downtrodden
Will rise above my falls
And crush the doubters one and all [x2]

Embrace the fear until the end
Never tinking about the future
Never considering the end
Your strength is all you need
