Such an innocent face and a wonderful person  
Took her last breath and now she's missed this world  
An unforgettable act, the worst possible thing  
Playing the role of a God with another human being

Die with regret, die guilty for what you did  
Die with regret, die guilty for what you did  
Die with regret, die guilty for what you did  
Die with regret, die guilty for what you did

Who are you to decide, who is to live or who is to die  
You'll be the first to die, or better yet, be buried alive

We will never forget everything that you did  
The sentence lies with us, we judge hard and won't  
forgive

Die with regret, die guilty for what you did  
Die with regret, die guilty for what you did  
Die with regret, die guilty for what you did  
Die with regret, die guilty for what you did

I know she's gonna wait for you in hell  
I know she's gonna save a place for you in hell
