You're not my savior  
And you never will be  
You're not my savior  
And you never will be

Blame me, because  
I never worshiped your lies  
Chanting your hymns to a ghost  
It will never save you

You're not my savior  
And you never will be  
You're not my savior  
And you never will be

Can you see that he's slowly  
Pulling you in his wrath?  
He's sucking the life from your heart  
So you can't ever go back

Haunted by your demons  
You feel so alone  
Haunted by your demons  
You feel so alone

Don't you feel alone?
