"Lies"

Visit "[Lies](#)" on MotoLyrics.com

Once again you expect us to believe your lies
But I removed the blindfold that you put across my
eyes
I can no longer sit back and watch this system destroy
What's left of me
Everything that surrounds me is a lie
Everything that surrounds me is a lie
Everything that surrounds me is a lie

No more, this is not freedom we don't even question it
These are your standards these area your ideals
These are your morals
But this is my life
I'm taking back my fucking life
I won't let you make a living off my misery
