"If My World Stops Turning"

Visit "[If My World Stops Turning](#)" on MotoLyrics.com

I can see my future
When I'm looking in your eyes
And I can sense security
Just by you being in my life

I hear a voice inside my head
Say you're an angel in disguise
Without you I feel hopeless
Without you I'm deprived

I wish I could describe it
All the love I feel inside
Maybe I can find the words
That will make you realise

My life seems near perfect
When I've got you in my arms
Cause that's when I feel wholesome
That's then I'm with you

Chorus
If my world stopped turning in the morning
And if God should take this all away
If it all should stop without a warning

I would still stand tall
Cause behind it all
You're the one who's made
A winner out of me

All day I long to touch you
And it comes as a surprise
That we spent so long apart
Even more than I survived

And if I'm speaking frankly
There's only one thing I can say
That I'm falling for you baby
Falling further every day

Chorus

If my world stopped turning in the morning
And if God should take this all away
And if it all should stop without a warning

I would still stand tall
Cause behind it all
You've made me a winner

repeat chorus

If my world stopped turning in the morning
And if God should take this all away
If it all should stop without a warning

I would still stand tall
Cause behind it all
You're the one who's made
A winner out of me
